Detailed Action

1.) The specification is objected to because the main body of the specification does not refer to “constant power” as set forth in claims 3, 4, 11, and 12. The main body of the specification sets forth constant energy (for example, see the use of the term “constant energy” at page 5, line 1, page 11, third line from bottom, page 12, five instances in the last paragraph, and page 13, line 12). As discussed below and in the previous Office action, constant energy does not make sense in the context of applicant’s invention. Applicant apparently intended to use the term “constant power” in the main body of the specification and indeed uses the term “constant power” in the abstract. Applicant should review his specification for instances of the term “constant energy” and should amend the same to be constant power. The support for this suggested amendment would be the abstract of the originally filed application.

2.) The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3.) Claims 4 and 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claims 4 and 14, the references to a “constant energy” welding process are unclear. If a welding process is ongoing, its total energy expended is continually increasing. Energy can be constant for a welding process only when that process has ceased. Applicant can overcome this rejection by changing the term “constant energy” to constant power.

4.) Claims 3 and 5-13 are allowable over the prior art of record.

5.) Claims 4 and 14 would be given favorable consideration if amended to refer to constant power as discussed above.

6.) Applicant's arguments filed on 10/26/2006 have been fully considered but they are not persuasive. Claims 3 and 5-13 are allowed. Claims 4 and 14 are rejected for the reasons set forth above.

7.) Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
